# Huntsville/Madison County's Choice For

**INSULATED CONCRETE FORMS**

**ENGINEERED LUMBER**

**NETWORK/AUDIO TECHNOLOGY**

**WATER DISTRIBUTION SYSTEMS**

**S**outhern Construction & Design, Inc., utilizes superior building materials and craftsmen to construct the custom home you expect. Insulated Concrete Forms by Eco-Block, can be used to build your home with superior structural strength, and unmatched thermal performance. Using this technique, you can save 40-50% on your energy bill. SCD Inc., also uses materials such as engineered I-Joist floor systems and Laminated Veneer Lumber to provide additional structural rigidity and strength to the home. Structured wiring provides whole home networking and the ease of interconnectivity for your entire family. The use of a Manifold Plumbing System equalizes water pressure so numerous fixtures can operate with minimal pressure drop, and also gives the owner the ability to instantly control the water system in their home.

SCD Inc. can work with your needs to provide you the materials and technology of today in your next home.
